Meeting Minutes

February meeting of the Austin Radio Control Association

President Pat Fernandez called the meeting to order at 7:10 PM. There were 17 members present.

The minutes of the January meeting were read and accepted as read.

The treasurer's report for January was read and accepted as read.

Old business;

Ken contacted the people who did the runway, about fixing the road, but they haven't come out to look and see what must be done. Robin handed out a page with some of the improvements/projects that the club might like to do this year. Most of these are small in nature and can be done over the length of the year. One project that we would like to do is a couple of large worktables and a few run up tables in the pit area. A motion to spend \$400 for these tables and some gravel for the road near our gate was made and passed. The question about the Safety Coordinator was answered by making all the officers to operate in that capacity. The president is also listed as Safety Coordinator on the form sent to the AMA. Loyd and Dick will do a club Fun Fly some time this year, date to be determined.

New business;

Bob Covish talked about the Grand Event that the Waco club would be hosting this year. They will need help with this event and if anyone would like to help, contact Bob for more information. Next meeting, we need to elect another Member at Large.

Blue Max nominees

There were no nominees for the award this month.

The meeting was adjourned at 7:55 PM.

President's Column

I would like to start by thanking Jack Lewis for his service to the club. Jack has helped out tremendously in the past and we had actually conned him into dedicated service this year as a member-at-large. His employment situation is taking him away from this area and we are losing not only a terrific guy, but a valuable member to the club. He is leaving shoes that need to be filled and, as in the past, it seems that someone will step up and help carry a share of the load. This month we will be seeking nominations to replace Jack at the "member-at-large" position. We also have gathered some information regarding the entry road. We have a few options, and by the time of the meeting, we should have a decision by the "gun and skeet" club as to their participation. Some of the members are using the new "starting" stands Robin has built. I would appreciate feedback on the value of building more of these stands, or if any improvements can be made. Lastly, one of the new work tables was taken from the shelter. If you have any knowledge of this, we would appreciate any assistance in recovering the table.

Next Meeting
Thursday Evening
March 31st
7:00 pm
at the
Flying Field

Upcoming Club Events:

March 31st	Club Meeting Flying Field
