

May meeting of the Austin Radio Control Association

President Robin Masek called the meeting to order at 6:55, there were 24 members present.

The minutes of the April meeting were read and accepted.

The treasurer's report was read and accepted. Loyd said that the club made a profit of approximately \$1450 on the jet rally.

Old business;

Robin thanked Edwin for the water tank he brought to the jet rally. Larry Smith reported on the demo the club gave for the 4th graders, especially Loyd's crash to start the day. All the kids had a great time and wrote many thank you letters, which Larry will post on the bulletin board.

The 4H Capital Aerospace Camp will be visiting the club Thursday July 19th at 9 am, check the website and come out and help if you can.

New business;

Ben Huff donated his airplane stuff and the club will auction it off after the meeting.

Blue Max nominees;

Loyd for crashing in front of the 4th graders and KR, who brought out a cake to celebrate his plane's 9yr birthday and proceeded to crash it. KR won by a large majority.

Meeting was adjourned at 7:15 and the auction followed immediately.

I would like to thank Ben Huff and Tom Fowles for their donations of their good RC stuff for the ARCA Auction. The auction lasted for over two hours and the club members got some real good buys. All the proceeds (\$329.00) from this auction will go for runway improvements. Loyd will deposit this money in our bank account. We can not thank the club members past and present enough who donated their RC equipment to the club. **THANKS!!!!**
