

## August meeting of the Austin Radio Control Association

President Robin Masek called the meeting to order at 7:00 PM. There were 24 members in attendance.

The minutes from the July meeting were read and accepted as read.

The treasurer's report for July was read and accepted as read.

Old business;

The raffle of the giant scale airplane is to be the only raffle for this event. Doug thanked everyone who came out to the clean up for the event and those who signed up to help out during the event. In the event of having 4 fliers on the flight line at one time, a spotter/traffic director will be needed. T-shirts will be available for sale during the event. Robin installed the plaque to Jim Uhrue. Round Rock Hobbies will have a trailer with items for sale at the event all weekend. Glen will be offering a no sales-tax sale of any item during this time and many discounted items as well. He has also donated many pilot prizes for the event. Thanks again to Round Rock Hobbies and PowerMaster fuels, who donated a case of fuel for the event.

New business;

Loyd said that new club shirts, with a collar and pocket with club logo over it would cost ~\$12ea for 24 or ~\$10ea for 36. Ken made a motion the club purchase 36 shirts. A vote was taken and the motion passed. Elections for officers for next year are approaching, consider running for office and let everyone know that you are interested in doing so. All positions will be available. The upcoming Swap Meet is in the latest Model Aviation magazine. If you would like to reserve a table call Robin or Cliff. It is scheduled for October at the VFW hall. Christmas party was discussed, we are going to try and get the same place, Cat Mountain Hollow, as last year.

Blue Max Award

Bill crashed an electric Stik and was awarded the Blue Max

Meeting adjourned at 7:40 PM
